PERSONAL INFORMATION

Date of Birth: 29 August 2000

Nationality: Indian

Gender: Male

Marital Status: Single

Languages Known: English (Fluent),

Hindi (Native), Basic Arabic

Visa Status: Willing to relocate

SKILLS

- Frontend: React.js, Laravel, HTML5, CSS3, JavaScript, Tailwind CSS
- Backend: Node.js, Express.js, REST APIs
- Database: MongoDB, MySQL
- Authentication: JWT, OAuth2
- Testing & QA: Java, Selenium WebDriver, Appium, TestNG, JUnit
- Tools & Frameworks: Postman, JMeter, WebRTC, Socket.io
- DevOps & CI/CD: Git, GitHub, Jenkins, Docker
- Others: Payment Integration, Nodemailer, PDF Services, Google Maps API, MS Excel, Agile/Scrum

POWER SKILLS

- Critical Thinking & Analytical Reasoning
- Problem-Solving & Attention to Detail
- Time Management & Adaptability
- Team Collaboration & Communication
- Initiative & Self-Motivation

PROFESSIONAL SUMMARY

Passionate Software Developer and Quality Analyst with a strong foundation in SaaS-based web application development and test automation. Proficient in modern full-stack development using React.js, Node.js, MongoDB, and Express.js, with additional strengths in testing frameworks like Selenium and Appium. Skilled in collaborative problem-solving, Agile methodologies, and crafting scalable, secure, and real-time systems. Proven ability to reduce manual testing effort by 40% and enhance system uptime through performance monitoring and proactive debugging.

WORK EXPERIENCE

A2Z Finserve Insurance Marketing LLP March 2025 - Present
Full Stack Developer (On-site)

- Developed two full-stack SaaS platforms: a real-time Attendance App and a multi-role Claim Management Portal using React.js, Node.js, Express.js, and MongoDB.
- Implemented advanced features like facial recognition, live GPS tracking, photo verification, chat system, and role-based dashboards for employees and admins.
- Built a 5-level service hierarchy system with JWT authentication, RazorPay integration, Nodemailer alerts, and automated PDF document generation.
- Streamlined operations through CRUD-based user management, claim approval/rejection workflows, attendance logs, and internal messaging panels.
- Reduced manual processing time by over 60%, improved data transparency, and enhanced platform scalability and security through microservice principles.

RedCat Technologies Pvt. Ltd May 2024 - March 2025
Technical Analyst (On-site)

- Application Support: Identified and resolved critical application issues, ensuring uninterrupted system functionality for enterprise users. Reduced resolution time by 25% through proactive incident management.
- Software Testing: Conducted end-to-end testing of critical application features using Selenium, Appium Inspector, and UI Automator; identified and resolved 100+ bugs, enhancing system stability, performance, and user experience.
- Data Analytics: Utilized Excel, Power BI, and SQL to analyze application performance metrics and provide actionable insights, Improved system efficiency by 20% and reduced resource utilization by 15%.
- Maintained over 20+ detailed technical documents outlining application workflows, testing protocols, and issue resolution plan.

PROJECTS

Attendance App – Smart Employee Attendance System May 2025 - July 2025
React.js | Node.js | Express.js | MongoDB | WebRTC | Socket.io | Google Maps API

- Developed a full-stack facial capture-based attendance system used by over 100+ employees, enhancing workforce visibility and reducing manual tracking effort by 60%.
- Integrated real-time check-in/out functionality with 99.9% uptime, leveraging live camera feed, GPS tracking, and photo validation to ensure accurate attendance logs.
- Built 4+ role-based dashboards (Employee, Admin, Supervisor, HR) with calendar views and downloadable reports, enabling efficient access to attendance history and audit trails.
- Designed and implemented a WebSocket-based real-time messaging module, facilitating seamless internal communication between employees and admins, improving query resolution time by 40%.
- Launched company-wide announcement and policy modules, reducing email clutter and ensuring 100% message delivery and read confirmation for time-sensitive updates.
- Optimized backend performance, cutting API response time by 35% and ensuring synchronized operations across all user roles with enhanced security protocols.

ACHIEVEMENTS & CERTIFICATIONS

- Certificate of Appreciation for completing the project in a short deadline - A2Z Finserve Insurance Marketing LLP (2025)
- Certificate of Appreciation – RedCat Technologies Pvt. Ltd. (2025)
- Patent Holder: RFID Embedded Mobile Cover (Approved by Govt. of India, 2024)
- Certified in Automation Testing – University of Minnesota
- API Testing – Udemy | Java Full Stack – CipherSchools
- Microsoft Excel – Coursera | DBMS – Infosys
- Mr. Elegant Title – Lovely Professional University (2020)

EXTRA CURRICULAR ACTIVITIES

- Mastering JIRA Webinar for Android Project Management by Project Management Institute
- Microsoft Excel Webinar by Learn Excel Now
- Public Speaking Training conducted by Udemy
- Managed the social media accounts and promotional content for university tech fests and cultural events.
- Contributed as a Graphic Designer, creating visuals for the student magazine, enhancing its online presence
- Volunteered as a Web Developer at Sant Kabir Sewa Samiti, where I contributed to Improved the online presence by optimizing site performance and enhancing user experience.

A2Z Service Mitra (Enterprise Portal System) March 2025 - April 2025

React.js, Node.js, Express.js, MongoDB, JWT, RazorPay, Nodemailer

- Engineered a 5-level user hierarchy platform (Customer → Agent → Sales Manager → Branch Manager → Regional Head → Admin), enabling secure access control across 6 distinct roles and improving process accountability by 70%.
- Implemented 50+ dynamic CRUD operations for claims, user management, and service modules, enhancing administrative efficiency and reducing manual errors by 60%.
- Integrated RazorPay payment gateway, enabling seamless transactions for 1000+ service requests with real-time payment status and invoice generation.
- Built claim lifecycle workflows including file upload, document viewing, and admin approval/rejection flows, reducing claim processing time from 3 days to under 24 hours.
- Automated communication system using Nodemailer, triggering email alerts for status changes, verification reminders, and approvals, achieving 95% notification delivery success rate.
- Developed PDF generation module for downloadable claim receipts, policy documents, and reports—used in over 1200+ successful claim transactions.

Imagine – App & Web App Platform May 2024 - November 2024

Selenium, Appium, UI Automator, Appium Inspector, Java, JSON, Eclipse IDE, Trello.

- Served as a full-stack tester for a hierarchical platform resembling Cashify, featuring 4+ roles such as Admin, Superdistributor, Distributor, Retailer.
- Designed backend source files for the Katalon app and React web app using 20,000+ Lines of JSON Code.
- Managed a database for 17+ phone models, detailing brand names, logos, images (stored as URLs), colours, and variants.
- Designed and executed 100+ manual and automated test cases for core features, including inventory management, product search, warranty claims, and payment gateway integration.
- Automated 50+ test cases using Selenium WebDriver, reducing manual effort by 40%.
- Conducted functional, regression, and cross-browser testing to reduce error 30% and ensure a seamless user experience.
- Utilised Trello for project progress tracking and collaborated with cross-functional teams to deliver a robust platform.

EDUCATION

Lovely Professional University (recognized with an A++ grade by NAAC)

Bachelor Of Technology in Computer Science & Engineering June 2020 - Aug 2024

- CGPA 7.4/10 ; Dean’s List, 2022-2024,
- Relevant Coursework: Software Engineering, Algorithm, Artificial Intelligence, Web Marketing

Faran Inter College, Sant Kabir Nagar, Uttar Pradesh

Senior Secondary Education (12th) April 2018 - July 2019

- Secured First Division with Distiction | Percentage : 74% | Uttar Pradesh Madhyamik Shiksha Parishad

Faran Inter College, Sant Kabir Nagar, Uttar Pradesh

Matriculation (10th) March 2016 - April 2017

- Secured First Division with Distiction | Percentage : 84% | Uttar Pradesh Madhyamik Shiksha Parishad

PROFESSIONAL CERTIFICATIONS

- Certified Automation Software Testing by University Of Minnesota
- Certification of API Testing Using Postman by Udemy
- Introduction to Object Orineted Programming in Java by LinkedIn
- Certification of Data Base Management System by Infosys
- Introduction to Microsoft Excel by Coursera
- Certification of Java Full Stack Development by CipherSchools
- Certified Customer Service Professional by Zendesk
